Problem Solving Record

We have a critical rule for the classroom: Choose safe behavior that supports the classroom learning and teaching expectations. You have chosen behavior that doesn't follow this rule, which has resulted in a problem for you to solve.

1. Answer the following questions to explain what led up to the problem.

a. Where and when did the problem happen?

b. What were you supposed to be doing when the problem occurred?

c. Who else was involved?

d. What did you do that was unsafe or unsupportive?

2. Explain how your unsafe or unsupportive actions are a problem for learning.

3. List three corrective actions you could take that would solve the problem and make things right.

4. For each corrective action in #3 explain what could be gained.

5. Which corrective action from #3 would you like to try? Why?

6. If this corrective action doesn't work, what do you think should happen next?
